Students learned about initiatives such as the Kumbar Sashaktikaran Programme, through which pottery artisans are provided skill development, modern tools and equipment such as electric pottery wheels and other machinery. The students also gained awareness about the financial assistance, credit facilities, subsidies and government support available for starting and expanding micro and small enterprises.

The visit therefore provided meaningful exposure to the journey from traditional skill to modern enterprise and encouraged students to look beyond conventional employment opportunities and explore entrepreneurship as a career option.
